DISMANTLING INSTRUCTIONS

DISMANTLING INSTRUCTIONS WITH EQUIPMENT

DISMANTLING INSTRUCTIONS WITH EQUIPMENT

The keg must be depressurized immediately after use and in all cases before being dismantled. The PolyKeg PRO keg can be easily dismantled as shown below, in order to make the materials recycling easier (please refer to the "Materials sheet").

DISMANTLING PROCEDURE

1. Keg locking

Hook the depressurized keg to the device surface.

2. Valve removal

Unscrew the valve using the dedicated dismantling key.

3. Valve extraction with dip tube or bag kit

Pull out of the bottle the valve and the dip tube, or the valve and the bag kit.

4. Valve from dip tube or from bag kit separation

Hook the valve to the ring and then detach it from the dip tube or from the bag kit.

3. Dip tube from bag separation

Hook the bag kit to the ring and separate the dip tube and bag from the bag neck.

DISMANTLING INSTRUCTIONS WITH EQUIPMENT

6. Handle removal

Remove the keg handle.

7. Base removal

Push the bottle until the base comes out.

8. Base unlocking

Unhook the base of the keg from the device surface.

9. Sorted keg components

The keg must be depressurized immediately after use and in all cases before being dismantled. The PolyKeg PRO keg can be easily dismantled as shown below, in order to make the materials recycling easier (please refer to the "Materials sheet").

DISMANTLING PROCEDURE

1. Valve removal

Unscrew the valve using the dedicated dismantling key

2. Valve extraction with dip tube or bag kit

Pull out of the bottle the valve and the dip tube, or the valve and the bag kit.

3. Handle removal

Remove the keg handle.

4. Base – keg detachment

Lock the key on the base of the keg and turn the lever 180° anticlockwise.

5. Valve from dip tube or from bag kit separation

Remove the valve from the tube or bag kit by holding the valve and pulling the tube or bag kit towards you.
