<b>CTR 45 ft High Cube</b>	26	2600	2080	2080	1664	1248
<b>Truck 13,6 mt</b>	26	2600	2080	2080	1664	1248

#### WARNINGS

Possibility of stacking pallets and the maximum number of layers must take into account the mechanical properties of the keg as specified on the technical data sheet, local regulations, means of transport, handling methods of handling, as well as the conditions of storage areas. Kegs are supplied on pallets, wrapped with white extensible film for better protection.

\*Quantities refer to three layers palletization, compulsory for CTR 20 ft Standard.

Kegs per pallet	45	30	30	24	22
Height	1307 mm   51,45"	1098 mm   43,22"	1274 mm   50,15"	1268 mm   49,92"	1268 mm   49,92"
Stacking in storage					
Layers	3+3	2+2	2+2	2+2	2+2
Stacking for transport					
Layers	3+2	2+2	2+1	2+1	2+1

Wooden interlayer

### WARNINGS\*

Possibility of stacking pallets and the maximum number of layers must take into account the mechanical properties of the keg as specified on the technical data sheet, local regulations, means of transport, handling methods of handling, as well as the conditions of storage areas. To overlap pallets, the load must be evenly distributed using either a rigid interlayer or an inverted pallet. It is recommended to wrap the kegs on pallets with white extensible film for better protection.

<b>CTR 40 ft High Cube</b>	22	
<b>CTR 45 ft High Cube</b>	26	
<b>Truck 13,6 mt</b>	26	

#### WARNINGS

When transporting filled kegs, it is recommended to use refrigerated containers.

When using refrigerated containers, the number of pallets may vary.

To overlap pallets, the load must be evenly distributed using either a rigid interlayer or an inverted pallet. In order to prevent damage to the kegs and/or falls, the pallets must be secured with straps and airbags must be inserted in the empty spaces.

The maximum number of layers/kegs must consider the mechanical properties of the kegs as indicated on the technical data sheets, local regulations, means of transport and handling methods, as well as the condition of the storage facilities.
